

## ANNOUNCEMENT

### GSC offices in Antwerp operational 2 January 2012

As announced on 1 November 2011, Green Reefers ASA, Bergen, and the Seatrade group of companies have established a new pool, the GreenSea Pool, which will start operation as from 1 January 2012. The GreenSea Pool will contain the 46 vessels in their respective fleets in the size range of 192,000-315,000 cubic feet.

All commercial activities and operations will be handled by GSC-GreenSea Chartering B.V.b.a., offering competitive and commercially attractive specialised refrigerated cargo services to shippers in response to increased competition from reefer containers.

It is with great pleasure we announce that the GSC-GreenSea Chartering B.V.b.a. offices in Antwerp will be headed by Hans Mol and staffed with some other names well known to you. The offices will open for business as from 2 January 2012, at which time the communication numbers and e-mail addresses below will become operational.
